HubX is a new kind of media lab located in downtown Santa Cruz. It's a creative space where people of all ages can explore new and immersive technologies like VR, Interactive Media, AI, Simulation Art, and Audio Design. The folks at HubX have started a GoFundMe campaign so they can buy equipment for a Teen & Internship Program that will start in early 2020. They need to buy a large video wall for immersive storytelling and simulation, some new computer workstations, a 3-D printer, and some other exciting gadgets to have on hand for projects. Want to help?

As usual, there's more. Scroll down and see what's up.
